

Tired of neighborhood punks destroying your pumpkins?! Our curb appeal enhancing **4WDJeepOLanterns** are guaranteed to stop them "dead" in their tracks & display your Jeep pride at the same time. We've got you covered from CJ through JK & even XJs and WJs. Follow these 3 easy steps instead of sitting in the **Dead Zone**, visiting the **Pet Sematary**, or going **Psycho**.

1. Print this on card stock or heavier paper. Or glue your printer page to something sturdier.
2. You can use a thumb tack, nail, or template wheel to transfer the grey outlined shapes (what you'll cut out) to your pumpkin. You can also scribble with pencil on the back of this sheet, flip the pattern over, & then retrace the grey outlined shapes in pen.
3. Carve out those areas & share a picture of your "haunted porch" with us on Facebook or Instagram using **#4WDJeepOLanterns**.
